Evergreen Landscape Pros Expands Custom Landscape Design & Installation Services Across Greater Santa Fe

May 18, 2026

SANTA FE, NM - May 18, 2026 -
Santa Fe?s Client-First Landscaping Company Delivers End-to-End Design, Hardscape, and Water Feature Solutions Tailored to New Mexico?s High-Desert Environment

Evergreen Landscape Pros, a full-service landscaping company headquartered in Santa Fe, NM, announced a significant expansion of its Landscape Design & Installation services to meet growing demand from residential and commercial property owners across the greater Santa Fe region. The company now serves communities including Eldorado, Espanola, Galisteo, Lamy, Pecos, Pojoaque, Seton Village, Tesuque, White Rock, and surrounding areas.

The expanded service offering reinforces Evergreen Landscape Pros? commitment to a collaborative, client-first approach to landscape transformation. Unlike conventional contractors who apply one-size-fits-all templates, Evergreen?s team begins every project with an in-depth design consultation?working directly with property owners to understand their vision, preferences, and the unique characteristics of their outdoor space before any work begins.

Evergreen Landscape Pros? Landscape Design & Installation service encompasses the full lifecycle of outdoor transformation. The process begins with an assessment of existing conditions?whether the property is a blank canvas on a newly built home or an established yard with existing fixtures that need to be preserved or reimagined.

The scope of installation includes native plant selection suited for Santa Fe?s high-desert climate, custom hardscape elements such as flagstone patios, retaining walls, and walkways, integrated water features, efficient drip irrigation systems, and fencing options including coyote, latilla, cedar, and stone designs. The company also handles ongoing maintenance, ensuring that the landscapes they create continue to thrive through New Mexico?s distinct seasonal shifts.

?Landscaping is a very personal endeavor. Each homeowner knows exactly what they?re looking for,? said Kevin Lopez, Owner of Evergreen Landscape Pros. ?Our main challenge?and what drives us?is making sure that nothing gets lost in translation between what a client envisions and the finished result. That?s why we?ve built a company culture that puts the client?s vision at the center of every decision.?

Every project begins with an open conversation to capture the homeowner?s vision. Evergreen?s team sets aside personal bias to prioritize what the client wants?whether that?s a fully guided design or a surprise transformation where the team leads creatively.

Operating in Santa Fe?s unique environment requires specialized knowledge. Evergreen selects drought-tolerant native plantings, designs efficient irrigation solutions, and builds with materials that complement the region?s distinctive Southwestern aesthetic.

The same team that designs a landscape also handles installation and long-term maintenance. This eliminates the common problem of disconnected handoffs between design firms, contractors, and maintenance crews?ensuring continuity and quality from the first sketch to years of upkeep.

Evergreen Landscape Pros is committed to using high-quality materials and proven techniques. The company has built its reputation by refusing to substitute lower-quality finishes or cut corners, even when less visible alternatives might reduce short-term costs.

In addition to the core Santa Fe market, Evergreen Landscape Pros now provides services across Santa Fe County and neighboring communities, including Aqua Fria, Cañada de los Alamos, Chupadero, Glorieta, La Cienega, Los Cerrillos, and Las Dos. Property owners outside the listed areas are encouraged to reach out, as the company frequently accommodates projects beyond its published map.

Beyond Landscape Design & Installation, Evergreen Landscape Pros offers a comprehensive portfolio of outdoor services that can be bundled to meet each property?s needs: Landscape Maintenance & Restoration, Hardscape & Stonework, Patios, Portals & Walkways, Irrigation & Water Management (installation, repair, and maintenance), and Fencing in coyote, latilla, cedar, and stone styles. Clients who need help with multiple projects benefit from the convenience of a single, trusted partner.

Santa Fe area property owners interested in landscape design and installation are invited to request a complimentary estimate. Evergreen Landscape Pros can be reached by phone at (505) 375-6901 or (505) 393-6449, or through the online contact form at www.santafelandscapers.com/contact.
